

Hello,

The North West Children's Cancer Operational Delivery Network (NWCCODN) wants your help...

The NWCCODN is a group of healthcare organisations that work in the North West of England, North Wales and the Isle of Man. Read our Strategy to find out [here](#).

We are starting a project called Care Closer to Home. For more information visit the website [here](#).

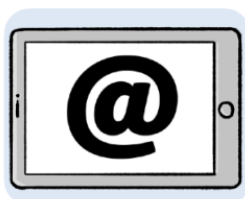

Some families have to travel a long way to get treatment.

Travel costs are expensive

We want to help families travel less.

We would love you to join our meetings to help us to shape the project. These meeting are on the computer.

If you would like to help or more information about the project, please email info.nwccodn@mft.nhs.uk

Thank you for reading this letter and for thinking about being involved.

From
North West Children's Cancer Operational Delivery Network
